

MINOR HOISTS has a quality policy based on the following points:

- The satisfaction of our customers, through a continuous improvement of the products that we design and produce, to cover the needs of the market.
- The definition of production processes in a friendly way with the environment and with an active protection of the health and safety of our workers.
- The definition of processes and tools to reach a continuous improvement of our quality system. We achieve it through the compromise and participation of all company staff.
- The continuous improvement in the internal and external communication, in order to work in all company functions, expecting to prevent potential problems and future needs and anticipating situations.
- Annual set of objectives to reach, which are periodically evaluated.
- To foster a work climate oriented to the development of personnel and all structure tasks.
- The compromise of the company Direction in the quality policy and its application to the processes of design, production and commercialization of wire hoists, rack&pinion hoists and mast climbing platforms.

MINOR HOISTS S.L.

Gabriel Jorba
